## Nursery Consultation

Dear Parents/Carers, Staff, Governors, and Members of the Community,

We are writing to inform you about an exciting proposal regarding the expansion of our school to take Nursery age children from September 2026. This initiative aims to increase the sufficiency of Early Years places in the area, where we know there is need and enhance the educational opportunities available to children in our community.

### Proposal Overview

We are proposing to extend our current age range to include children aged 3 years old. This will allow us to establish a nursery provision that offers high-quality early years education, ensuring a consistent and nurturing environment for young learners. With the aim of increasing the number of Nursery places from 5, 3 years old, in September 2026 to 15 by September 2027.

### Benefits of the Proposal

- **Enhanced Learning Opportunities:** Our nursery provision will provide children with a strong foundation in early education, fostering their social, emotional, and cognitive development.
- **Support for Families:** The provision will offer flexible childcare options, supporting working parents and carers in our community.
- **Continuity in Education:** By aligning the nursery with our school's ethos and curriculum, we can ensure a smooth transition for children as they progress through their educational journey.

### Consultation Process
