

Blue Area Homework – Term 6

Enquiries This Term: Who has stood here before us? / What choices do people make?

WEEKLY HOME LEARNING

Being a Reader	Being an Author	Being a Mathematician
<p>Reading Homework</p> <ul style="list-style-type: none"> Please read 5 times each week. You should read your school reading book aloud to an adult at home. This will help to improve your fluency and prosody. Your adult can then ask you some questions about what you have been reading so that you can practise your comprehension skills. Remember to ask the adult to write the title of the book and their initials in your Reading Record on the day that you read. Make sure that you remember to take home a school reading book every day. You should change your book when you are able to read it confidently. <p>We will also visit our school library regularly throughout the term and you will be able to choose a library book to take home and share. Remember to bring this book back into school when you are ready to change it.</p>	<p>Spelling Homework</p> <ul style="list-style-type: none"> Each week we will work on a new spelling rule in our spelling lessons. Spelling lists for this term can be found on the back of this homework sheet. Please practise reading and spelling these words at home until you can spell them from memory. You should practise spelling these words using your login for the spelling shed website, which is inside your Reading Record. Assignments will be set each week to help you learn your spellings and there are lots of fun games that you can play which will help you. <p>https://www.spellingshed.com/en-gb/</p> <p>Homework sheets providing opportunities to practise the spellings will also be sent home each week on Tuesdays to be completed by the following Tuesday.</p>	<p>Key Multiplication Facts</p> <p>Each day in school, we will take part in a 'Multiplication Challenge' to enable us to learn to understand and be able to recall multiplication and division facts from memory.</p> <p>Year 3 - You will be learning to recall multiplication and division facts for the 2, 5, 10 and 3 times tables.</p> <p>Year 4 - By the end of Year 4, you will need to be able to fluently recall multiplication and division facts for all of the times tables up to and including 12 x 12. You will learn the tables one at a time until you are ready to move on to the next one.</p> <p>Times Table Homework</p> <p>You should practise rapid recall of the times tables that you are learning in school by spending a few minutes each day on your times tables. (Multiplication and Division facts) You can do this using the Times Tables Rock Stars app or website using your personal login (Inside your Reading Record) or in any way that you choose.</p> <p>Remember, when you are chanting the facts you need to say the fact as we do in school. To say a multiplication fact, always look for the biggest factor in the calculation to say first and stick to the 'sound pattern'.</p> <p>EG for $4 \times 6 = 24$, we will say 6 4s are 24.</p> <p>For a division fact, we say it as the inverse too (multiplication)</p> <p>EG for $24 \div 4 =$ we would say 'Mmm 4s are 24, 6 4s are 24' in the same way, reading backwards from the answer across the fact, using our multiplication knowledge to answer the question. This way we only need to learn one fact to answer four calculations.</p>

PICK AND MIX ENQUIRY HOMEWORK – YOUR CHOICE!

These projects are themed around our second enquiry this term so you might want to wait until we have begun the enquiry before you complete your project.

Choose from the following projects. At least one to be completed before the end of term. When you have completed your project, please bring it in to share with your class.

Being a Scientist

If you have your own garden, you could plant some vegetable or herb seeds and keep a diary to monitor how they grow.

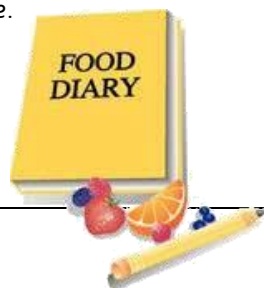

Being an Engineer

Plan your perfect meal. How will you make sure that your meal has everything you need for a healthy, balanced diet? If you ask an adult, you might even be able to prepare and cook your tasty dish.

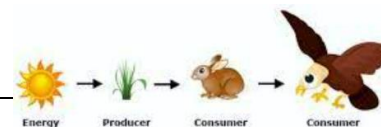

Being an Author and Mathematician

Keep a food diary for a week. How much of your protein comes from meat during the week? Share your findings in any way that you like.

Being a Reader and a Scientist

Research and investigate the diet of an animal of your choice. Can you show where your chosen animal fits within a food chain? You could draw, write or create a presentation of your research.

Being an Artist

Create a piece of artwork inspired by animals. You could learn to draw an animal, take inspiration from animal prints thinking about lines and texture or research a famous artist who creates animal art.

Term 6 Spelling Word Lists.

Below are the spelling lists for this term. Please make sure you are learning to spell these words each week through regular spelling practise. This can either be through completing the assignments set for you on the Spelling Shed website or by practising them in a way that suits you.

Year 3 Spelling Shed Lists

WB 1.6.26	WB 8.6.26	WB 15.6.26	WB 22.6.26	WB 29.6.26	WB 6.7.26
